
Using the People Stock Library

Created On: September 21, 2022

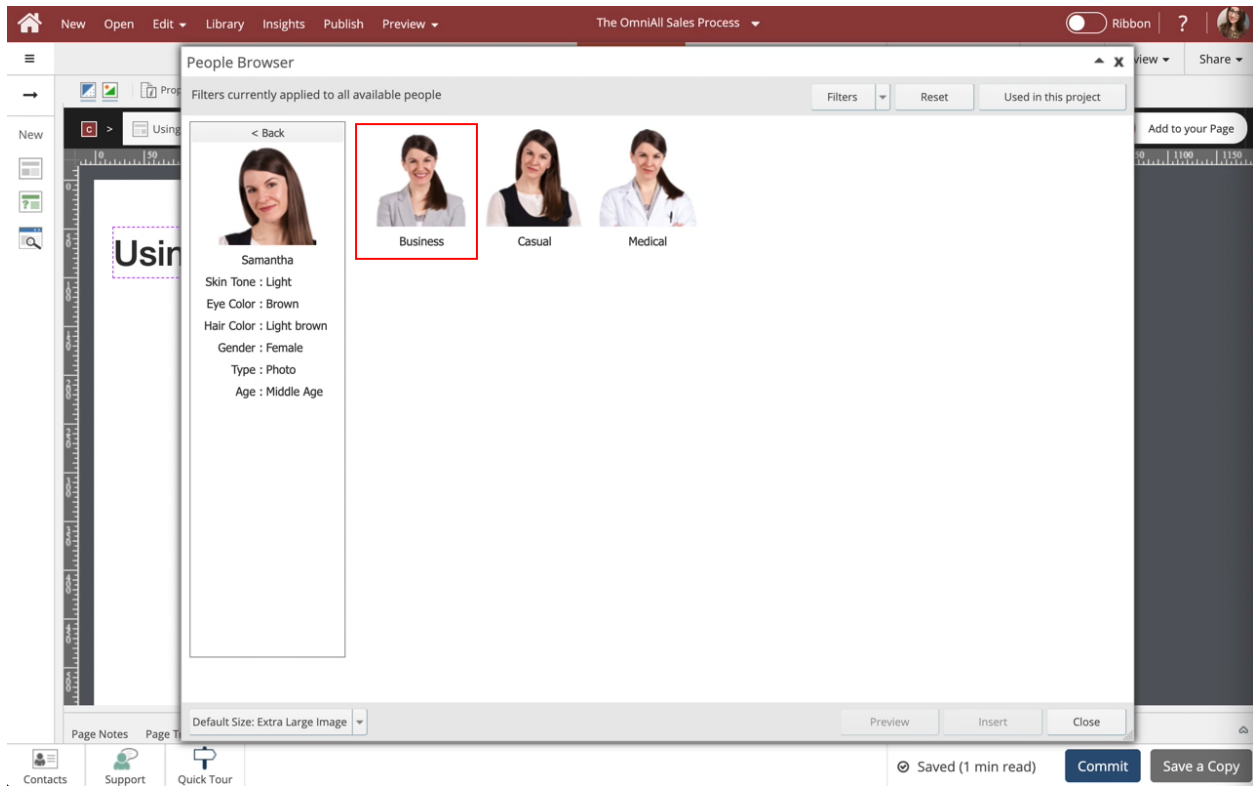

Using the People Stock Library

1. Once the People Browser is accessed, the People Browser popup will appear. Select the Character you would like to use/view. In this case, select Samantha.

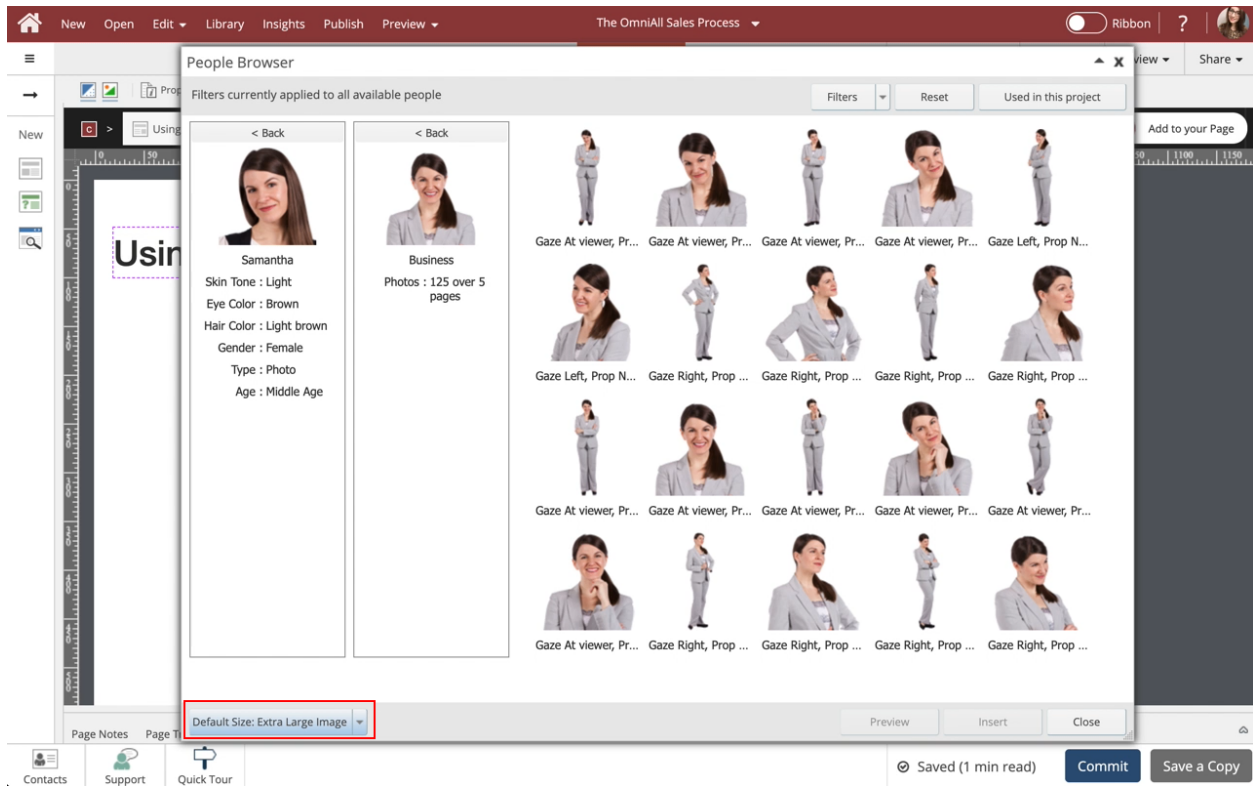

Using the People Stock Library

2. From here, you can select the style of clothing the Character uses. Note: For People you can choose Business, Casual, and Medical. For Cartoon Characters, Business is the only option. Select Business.

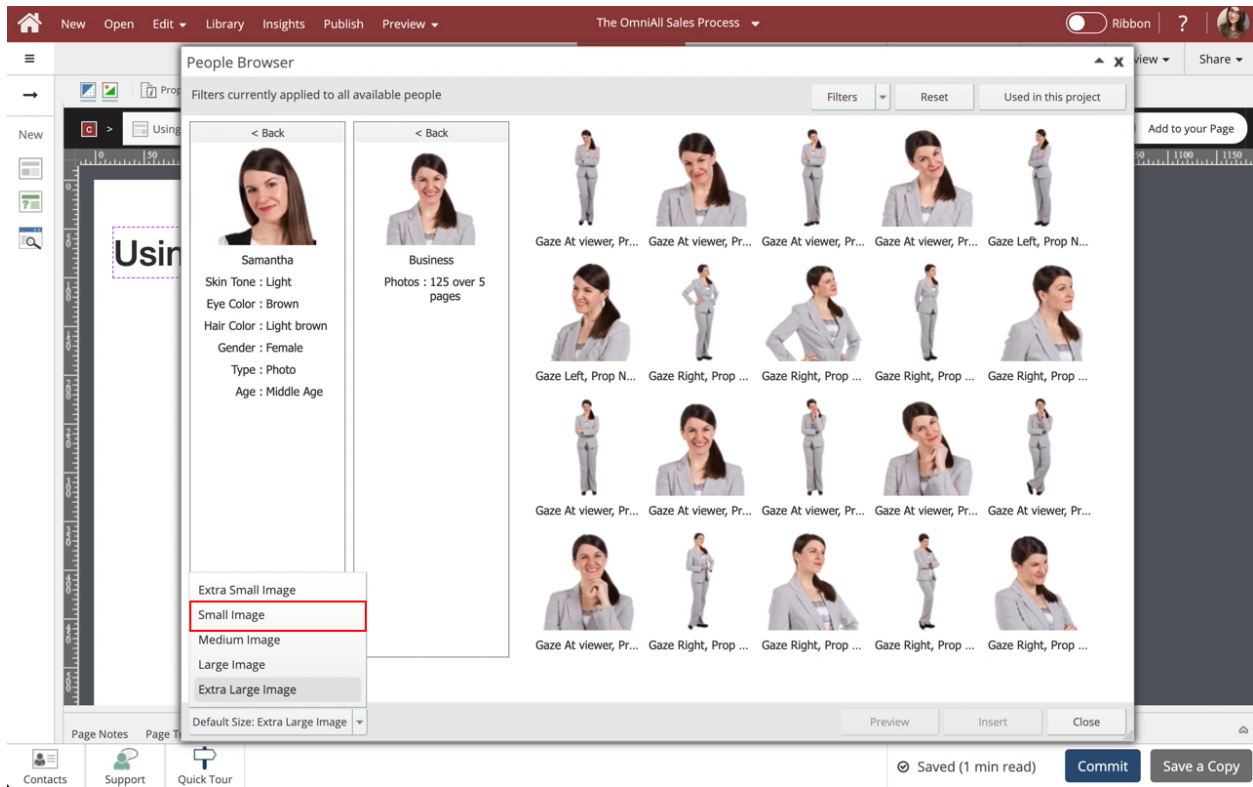

Using the People Stock Library

3. Now that the style is selected, you can view the available poses of that character style. To change the size of the image used select the Default Size Dropdown in the bottom left corner of the People Browser.

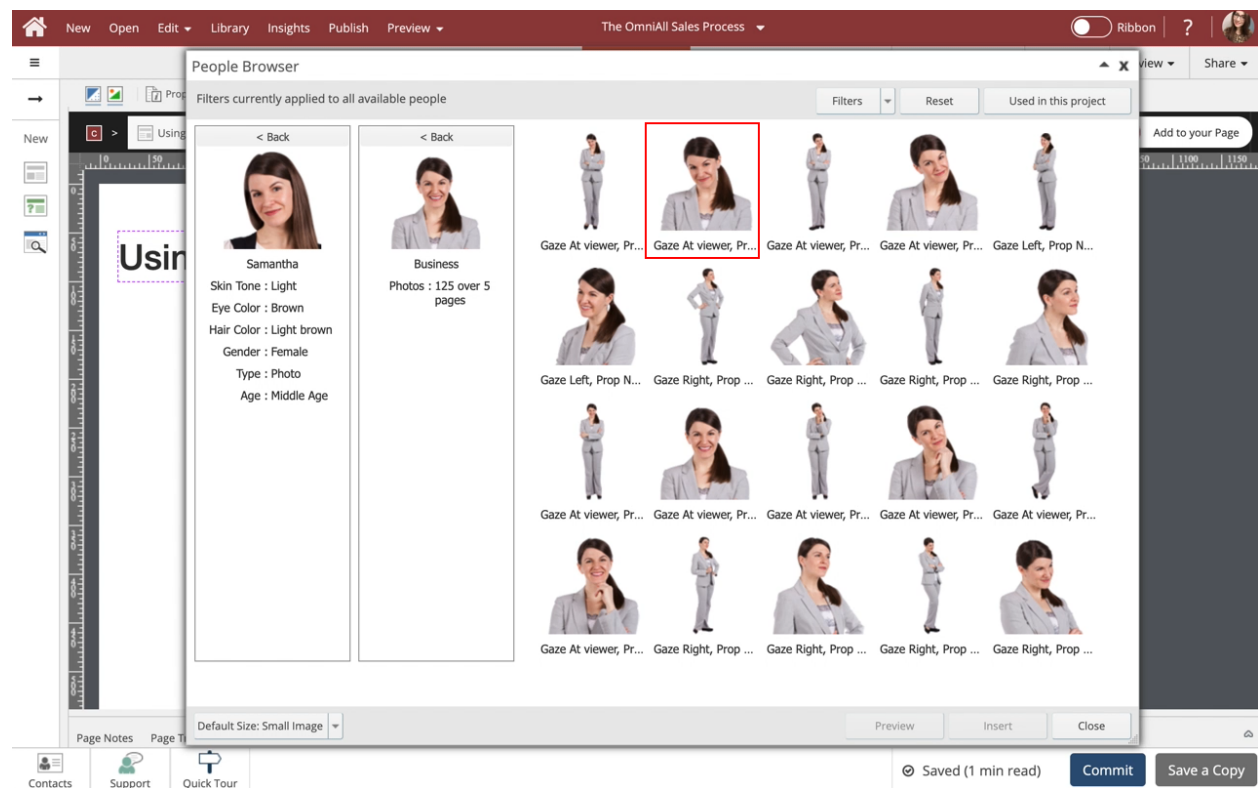

4. Select Small Image.

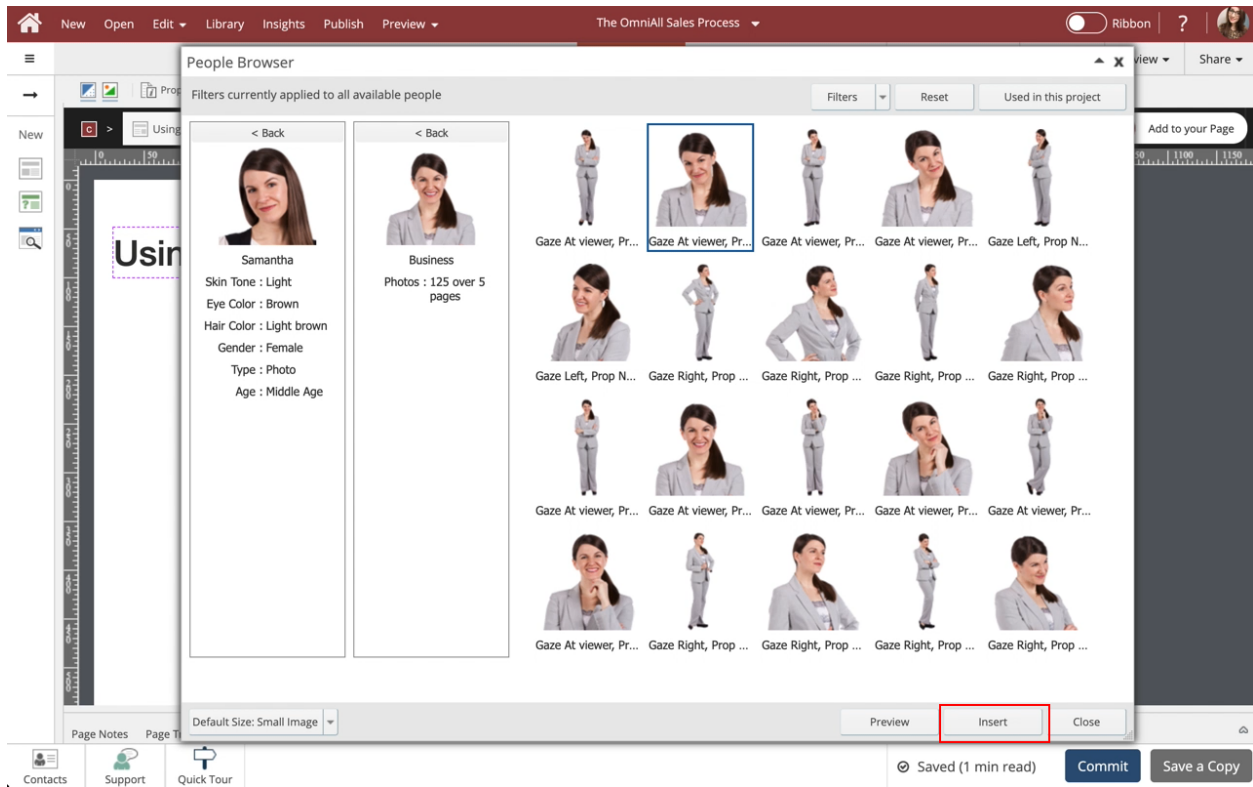

Using the People Stock Library

5. The new image size has been set. To add the image to the page, select Option 2 Pose in the first row (Gaze at viewer, pr...).

6. Select Insert.

Using the People Stock Library

7. The Image has been added to the page.
