
Adding a Tabset to an element Placeholder on a Flow page

Created On: December 10, 2025

Adding a Tabset to an element Placeholder on a Flow page

1. Select the element **Placeholder** on the page.

The screenshot shows a web editor interface for a page titled "Performance Management Writing SMART Objectives". The page content includes a header with the title "Performance Management" and subtitle "Writing SMART Objectives", followed by a "Lesson Introduction" section. The introduction text reads: "Welcome to Writing SMART Objectives, part of our Performance Management curriculum for OmniAll employees." and "Review the Objectives, Time and Test details so you understand this lesson." A red dashed box highlights a placeholder area containing icons for a menu, image, video, and a plus sign. Below the placeholder is an "Add a Section" toolbar with various options: Favorite Sections, All Sections, H2 Heading Text, Rich Text, Add Image, Add Video, Tabs, Blank Layouts, Browse Baselines, Stock Templates, and Search Content. The bottom of the editor shows navigation and utility buttons like "Page Notes", "Page Transcript", "Element States", "Timeline", "Accessibility", "Contacts", "Support", "Quick Tour", "Saved (1 min read)", "Commit", and "Save a Copy".

Adding a Tabset to an element Placeholder on a Flow page

2. Above the Stage, select **Engage**.

The screenshot shows a software interface for editing a page. At the top, a dark blue ribbon contains the text 'Performance Management Writing SMART Objectives'. Below the ribbon, a toolbar includes buttons for 'Insert' and 'Engage', with 'Engage' highlighted in red. The main content area features a dark blue header with the text 'Performance Management Writing SMART Objectives' and a white section titled 'Lesson Introduction'. Below this, there is introductory text and a placeholder box on the right. At the bottom, there are sections for 'Add a Row' and 'Add a Section' with various icons. The footer contains navigation links like 'Page Notes', 'Page Transcript', 'Element States', 'Timeline', and 'Accessibility', along with 'Saved (1 min read)', 'Commit', and 'Save a Copy' buttons.

Adding a Tabset to an element Placeholder on a Flow page

3. Select **Tabs**.

The screenshot displays a software interface for creating content. At the top, a navigation bar includes 'New', 'Open', 'Edit', 'Library', 'Insights', 'Publish', and 'Preview'. The main title is 'Performance Management Writing SMART Objectives'. Below this is a ribbon with 'Insert' and 'Engage' tabs. The 'Engage' tab is active, showing a grid of interactive components: 'Interactive Components' (Tabs, Accordion, Steps, Carousel, Reveal, Tile), 'Widgets' (Scenario, Flip Set, Flash Card Set), 'Containers' (Panel, Card, Callout), 'Quizzes and Exercises' (M/C, True False), and 'HTML' (Widget). The 'Tabs' component is highlighted with a red box. Below the ribbon is a toolbar with various editing tools. The main content area shows a 'Placeholder' for a tabset. The page content includes a header 'writing SMART Objectives', a main heading 'Lesson Introduction', and two paragraphs of text. A placeholder box is positioned to the right of the second paragraph, containing a menu icon, a document icon, a video icon, and a plus sign. Below the text is an 'Add a Row' button and a grid of icons. At the bottom, there is an 'Add a Section' button and a row of icons: 'Favorite', 'All', 'H2', 'Heading', 'Rich', 'Add', 'Add', 'Tab', 'Blank', 'Browse', 'Stock', and 'Search'. The bottom navigation bar includes 'Page Notes', 'Page Transcript', 'Element States', 'Timeline', and 'Accessibility'. On the far left, there are 'Contacts', 'Support', and 'Quick Tour' buttons. On the far right, there is a 'Saved (1 min read)' indicator, a 'Commit' button, and a 'Save a Copy' button.
