# Edit the Content in a Tab Set Component

---

Created On: August 15, 2023

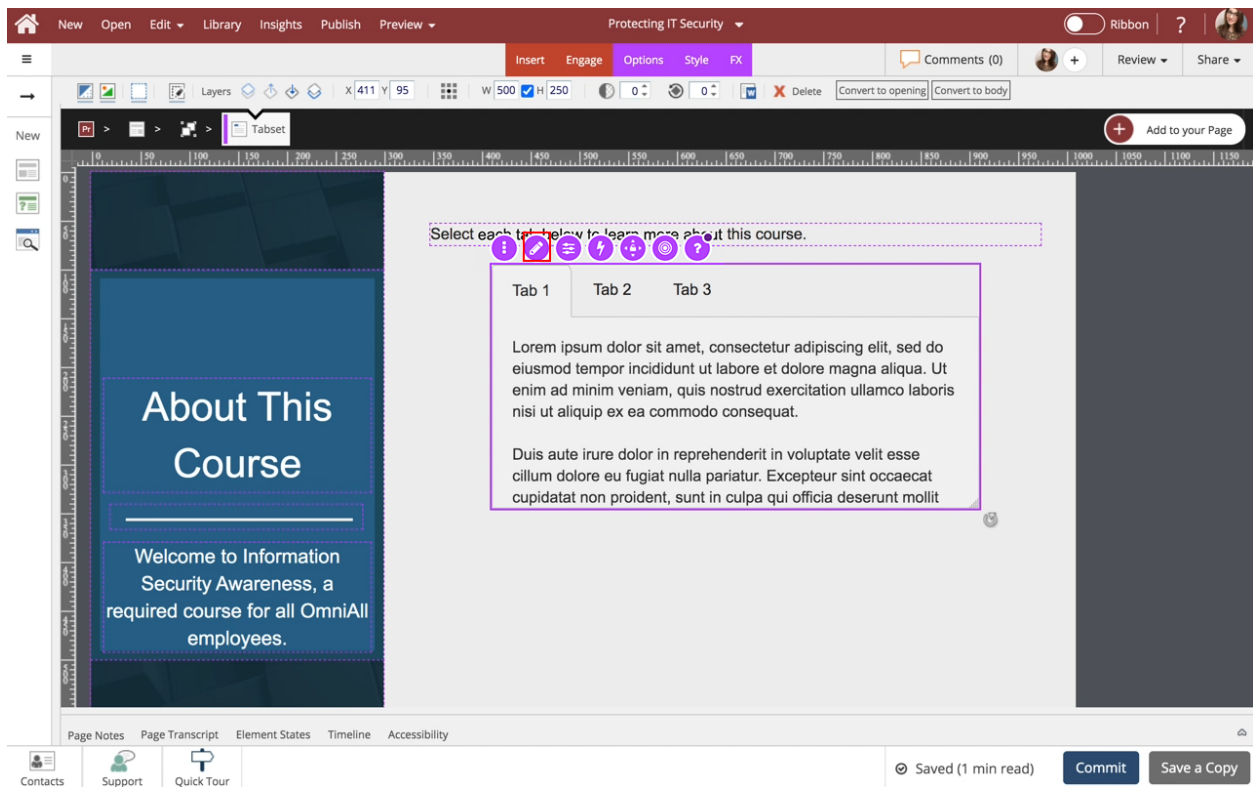

## Edit the Content in a Tab Set Component

### 1. Select the Tab Set on the Page.

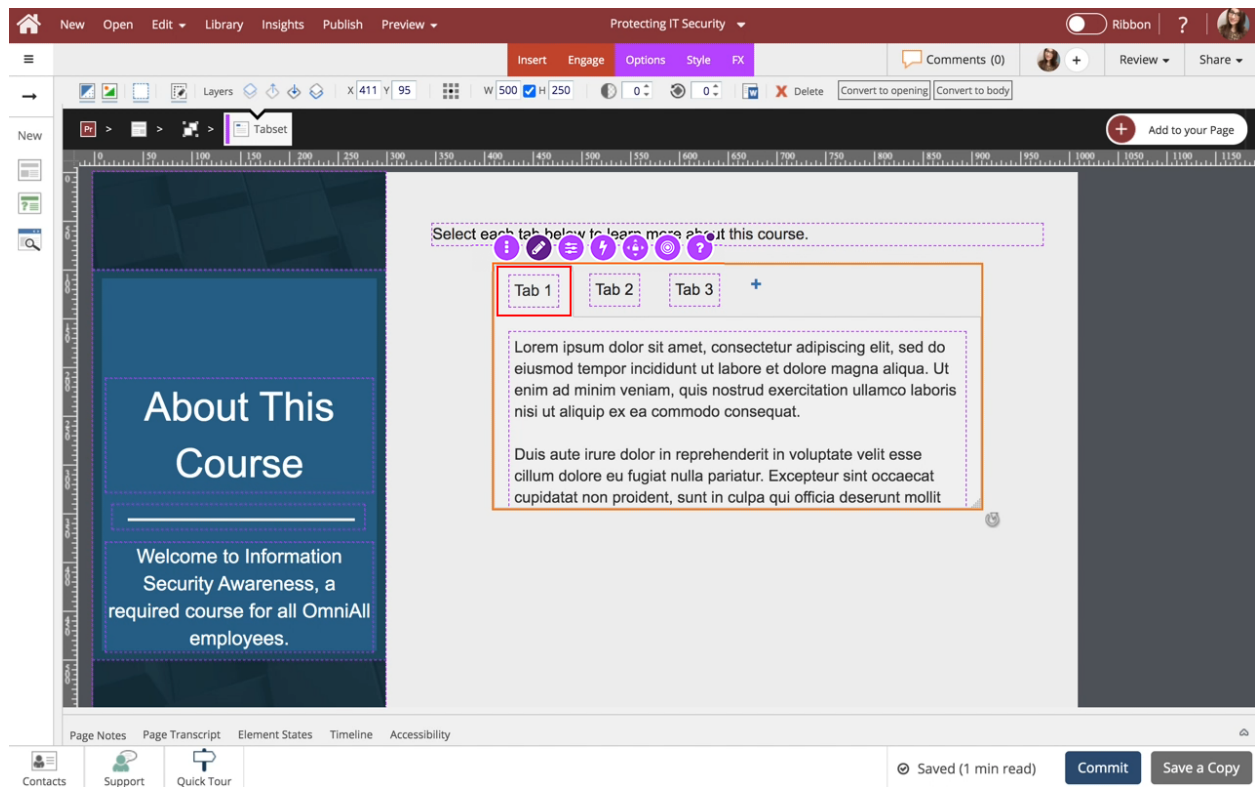

## Edit the Content in a Tab Set Component

2. To edit the content within the Tab Set, select the Edit Icon in the Element Controls Toolbar.

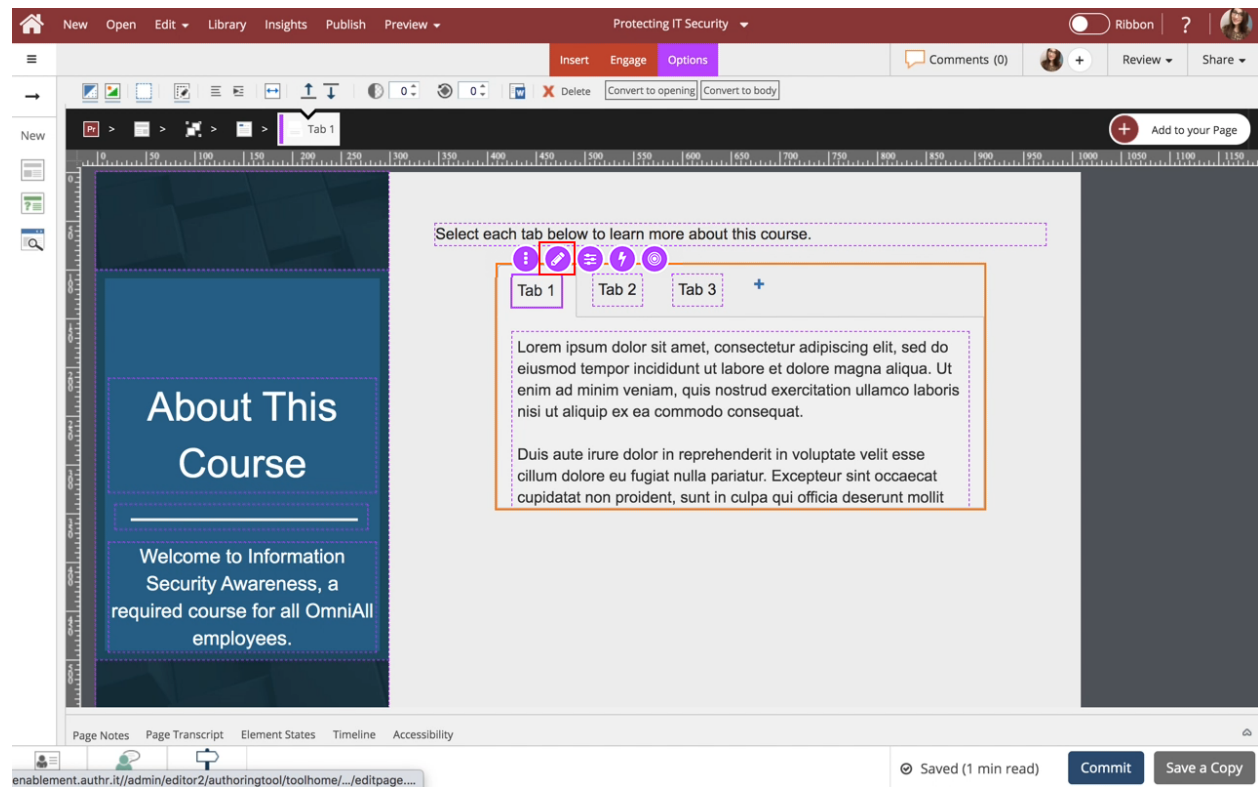

## Edit the Content in a Tab Set Component

3. Select the Tab 1 Heading element.

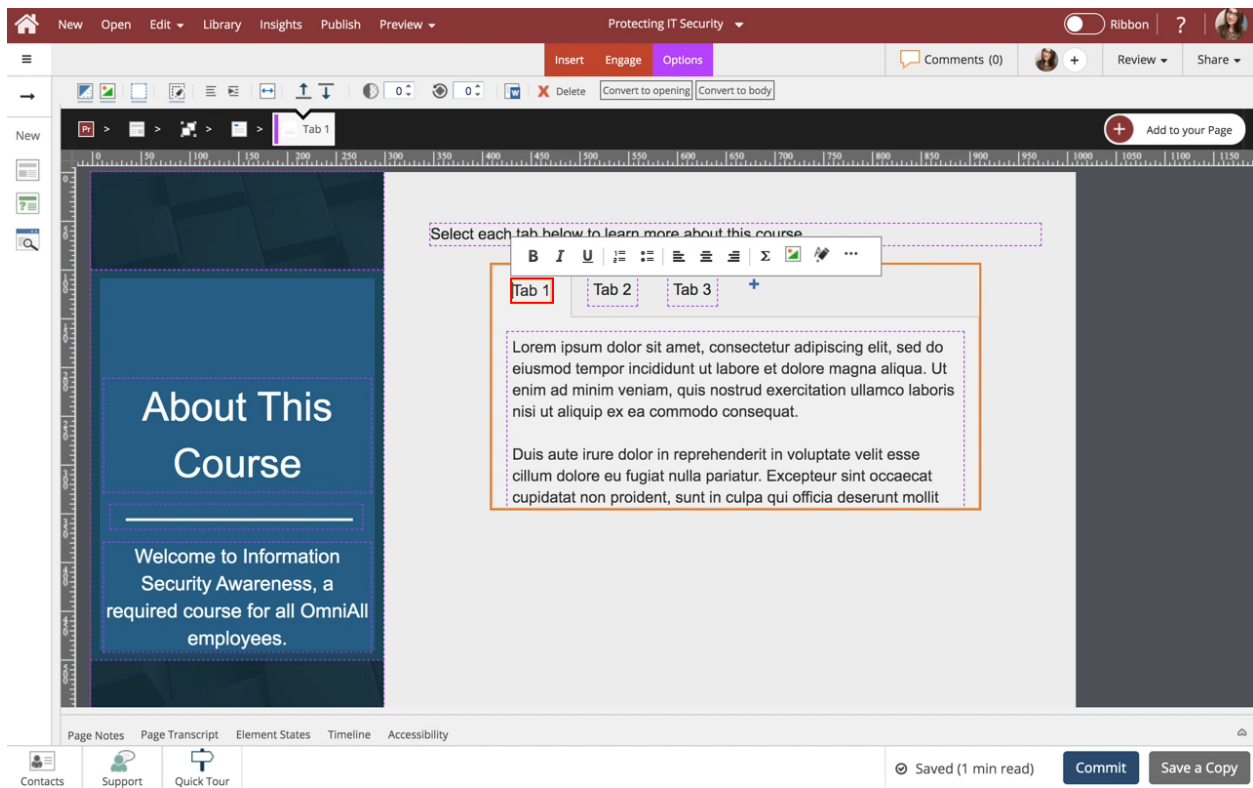

## Edit the Content in a Tab Set Component

4. Select the pencil icon. NOTE: You can also double-click the Tab 1 Heading to edit it.

## Edit the Content in a Tab Set Component

5. You can now edit the text in the Tab Heading. Select the text element and we'll add text for you.

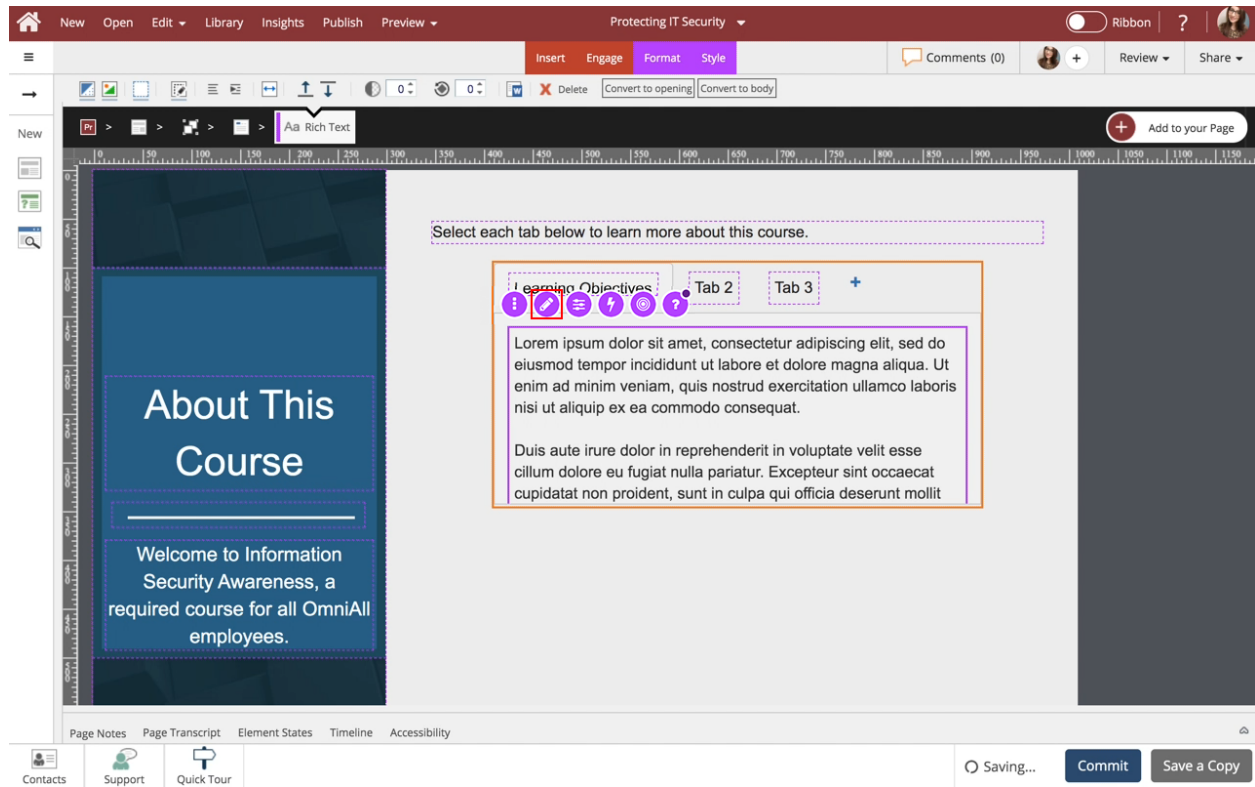

## Edit the Content in a Tab Set Component

6. The Tab 1 Heading is changed. Select the Text Placeholder within Tab 1.

The screenshot displays the LMS editor interface for a page titled "Protecting IT Security". The interface includes a top navigation bar with options like New, Open, Edit, Library, Insights, Publish, and Preview. Below this is a ribbon with tabs for Insert, Engage, and Options. The main workspace shows a tab set component with three tabs: "Learning Objectives", "Tab 2", and "Tab 3". The "Learning Objectives" tab is selected and highlighted with a red border. Inside this tab, there is a text placeholder with the heading "About This Course" and a sub-heading "Welcome to Information Security Awareness, a required course for all OmniAll employees." The text placeholder is outlined with a red dashed border. The bottom of the interface shows a status bar with "Saved (1 min read)" and buttons for "Commit" and "Save a Copy".

## Edit the Content in a Tab Set Component

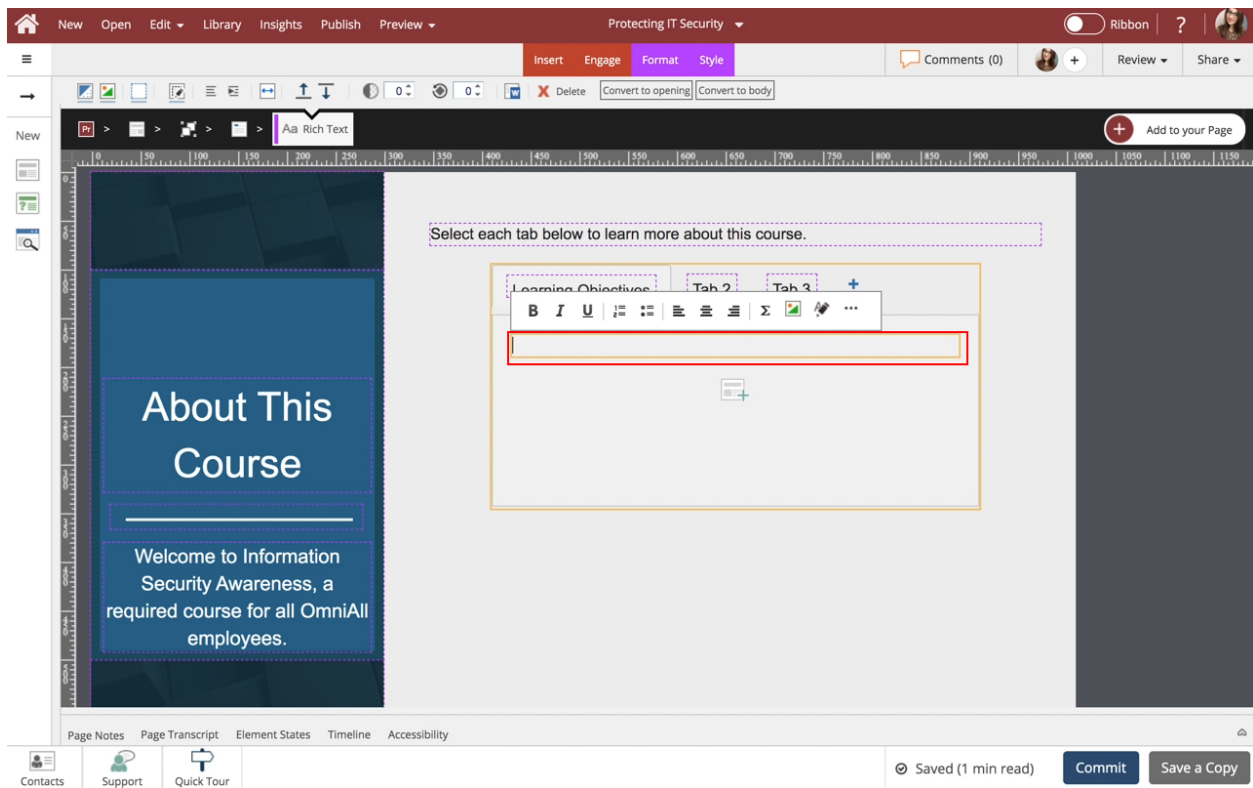

7. Select the pencil icon.
