
Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

Created On: January 18, 2023

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

1. Select the **Question** tab.

The screenshot displays the Articulate Storyline software interface. At the top, the ribbon menu includes 'New', 'Open', 'Edit', 'Library', 'Insights', 'Publish', and 'Preview'. The 'Question' tab is selected and highlighted with a red box. Below the ribbon, the 'Properties' and 'Delete' buttons are visible. The main workspace shows a slide titled 'Drag and Drop' with the instruction 'Drag only the correct text elements to the drop target.' and the question 'Which of these are examples of Malware?'. On the left, there are four draggable text boxes: 'Viruses' (green), 'Spyware' (green), 'Ransomware' (green), and 'Email Phishing' (red). On the right, there is a large blue rectangular drop target labeled 'Malware'. The bottom of the interface features a toolbar with 'Page Notes', 'Page Transcript', 'Element States', 'Timeline', and 'Accessibility' tabs. At the very bottom, there are links for 'Contacts', 'Support', and 'Quick Tour', along with a 'Saved (1 min read)' indicator and 'Commit' and 'Save a Copy' buttons.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

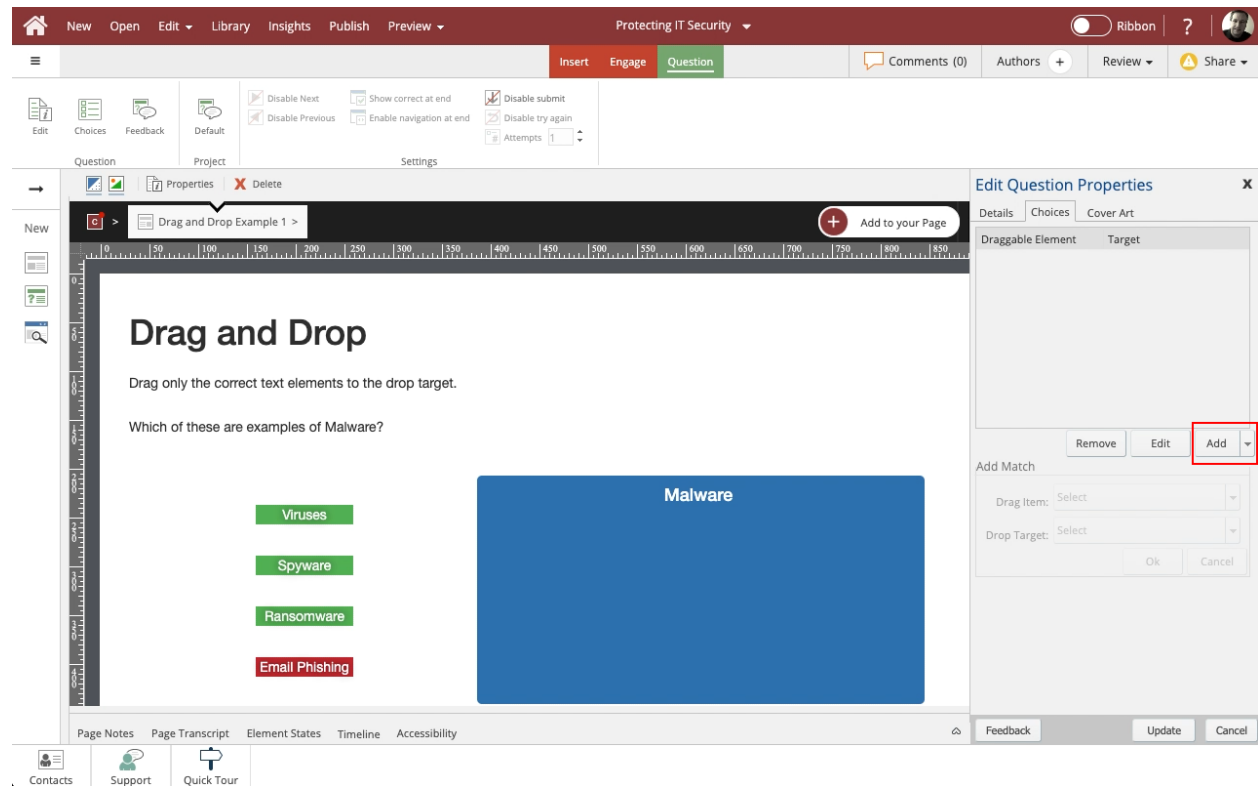

2. Select Choices.

The screenshot displays the Articulate Storyline software interface. At the top, the ribbon includes tabs for 'New', 'Open', 'Edit', 'Library', 'Insights', 'Publish', and 'Preview'. The 'Question' tab is active, showing options like 'Insert', 'Engage', and 'Question'. Below the ribbon, the 'Question' panel is visible, with the 'Choices' tab selected. The main workspace shows a slide titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. On the left, there are four choice buttons: 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. On the right, there is a large blue rectangular drop target labeled 'Malware'. The bottom of the interface shows a status bar with 'Saved (1 min read)' and buttons for 'Commit' and 'Save a Copy'.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

3. The Edit Question Properties panel will open to the right of the Stage.

To set up the first Match, select the **Add** button.

4. Select **Match**.

The screenshot shows the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for Edit, Choices, Feedback, and Default. The main canvas displays a drag and drop question titled 'Drag and Drop' with the instruction 'Drag only the correct text elements to the drop target.' The question asks 'Which of these are examples of Malware?' and lists four options: Viruses, Spyware, Ransomware, and Email Phishing. A large blue box labeled 'Malware' is the target. The 'Edit Question Properties' panel on the right shows the 'Match' option selected in the 'Add Match' dropdown. The panel also includes a 'Remove' button and a 'Match' button. The bottom of the interface shows a timeline and various tool icons.

5. Select **Drag Item** selection list.

The screenshot shows the Blackboard LMS interface for editing a question. The main window displays a question titled "Drag and Drop" with the instruction "Drag only the correct text elements to the drop target." and the question text "Which of these are examples of Malware?". Below the text are four draggable items: "Viruses", "Spyware", "Ransomware", and "Email Phishing". To the right is a large blue drop target labeled "Malware". The "Edit Question Properties" panel is open on the right, showing the "Add Match" section with "Drag Item" and "Drop Target" dropdown menus. The "Drag Item" dropdown is highlighted with a red box. The top navigation bar includes "New", "Open", "Edit", "Library", "Insights", "Publish", "Preview", and "Protecting IT Security". The bottom navigation bar includes "Page Notes", "Page Transcript", "Element States", "Timeline", "Accessibility", "Feedback", "Update", and "Cancel".

6. Select the **Viruses Text** element.

The screenshot shows the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for Edit, Choices, Feedback, and Default. The main canvas displays a drag and drop activity titled 'Drag and Drop' with the instruction 'Drag only the correct text elements to the drop target.' The question is 'Which of these are examples of Malware?' and the options are 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. A large blue box labeled 'Malware' is the target. The 'Viruses' option is highlighted. The 'Edit Question Properties' panel is open on the right, showing the 'Add Match' section where 'Viruses Text' is selected.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

7. The Viruses Text element is now bound in red on the Stage to show it was selected. Select the **Drop Target** selection list.

The screenshot displays the Articulate Storyline software interface. The main stage shows a drag and drop question titled "Drag and Drop". The question text is "Which of these are examples of Malware?". On the left, there are four text elements: "Viruses", "Spyware", "Ransomware", and "Email Phishing". On the right, there is a large blue rectangular area labeled "Malware". The "Viruses" text element is highlighted with a red border. The "Edit Question Properties" panel is open on the right side. In the "Add Match" section, the "Drag Item" is set to "Viruses Text" and the "Drop Target" is set to "Select". The "Drop Target" dropdown menu is open, showing the "Select" option. The bottom of the interface shows the "Page Notes", "Page Transcript", "Element States", "Timeline", and "Accessibility" tabs.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

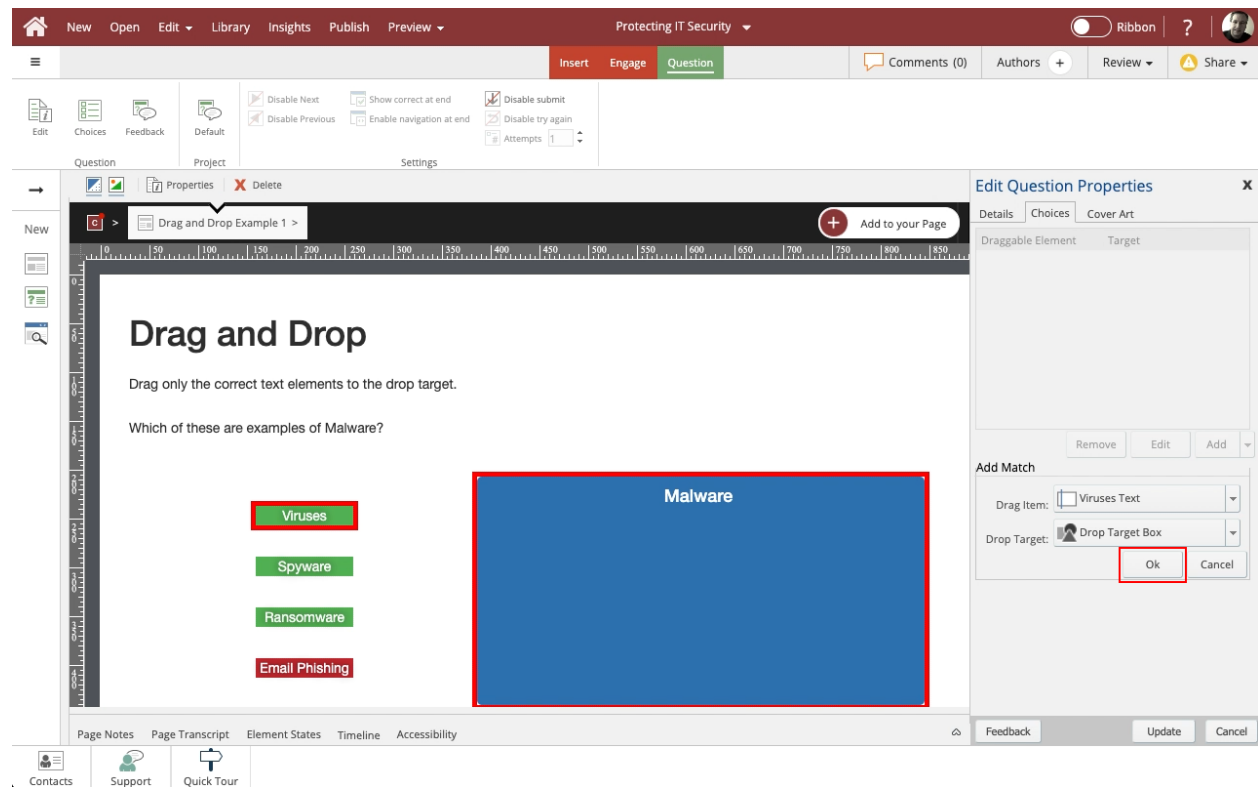

8. Select **Drop Target Box**. (This is the only element on the list because it is the only type of element on the page that can be a Target element.)

The screenshot displays the Blackboard LMS interface for creating a custom drag and drop question. The top navigation bar includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The main toolbar has sections for Question, Project, and Settings. The central workspace shows a question titled "Drag and Drop Example 1" with a blue background and a large blue box labeled "Malware". To the left of the "Malware" box are four red boxes labeled "Viruses", "Spyware", "Ransomware", and "Email Phishing". The right sidebar, titled "Edit Question Properties", shows the "Add Match" section with "Viruses Text" as the "Drag Item" and "Drop Target Box" as the "Drop Target". The bottom of the interface includes a footer with "Page Notes", "Page Transcript", "Element States", "Timeline", and "Accessibility" tabs, and a "Feedback" button.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

9.

The Drop target Box element is now bound in red on the Stage to show it was selected. Select **Ok**.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

10.
To set up the second Match, select the **Add** button.

The screenshot displays the Articulate Storyline software interface. The main workspace shows a slide titled "Drag and Drop" with the following content:

Drag only the correct text elements to the drop target.

Which of these are examples of Malware?

Below the question, there are four text elements: "Viruses" (green), "Spyware" (green), "Ransomware" (green), and "Email Phishing" (red). To the right of these elements is a large blue rectangular drop target labeled "Malware".

The right-hand pane is titled "Edit Question Properties" and has tabs for "Details", "Choices", and "Cover Art". The "Details" tab is active, showing a table with two columns: "Draggable Element" and "Target". The table contains one row: "Viruses Text" and "Drop Target Box". Below the table, there are buttons for "Remove", "Edit", and "Add" (highlighted with a red box). Below these buttons is an "Add Match" section with two dropdown menus: "Drag Item:" and "Drop Target:". At the bottom of the pane are buttons for "Feedback", "Update", and "Cancel".

The top ribbon includes tabs for "New", "Open", "Edit", "Library", "Insights", "Publish", and "Preview". The "Question" tab is selected, showing options like "Disable Next", "Show correct at end", "Disable submit", "Disable Previous", "Enable navigation at end", "Disable try again", and "Attempts".

11. Select **Match**.

The screenshot shows the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for Edit, Choices, Feedback, and Default. The 'Edit Question Properties' panel is open on the right, displaying the 'Details' tab. In the 'Draggable Element' section, 'Viruses Text' is listed. In the 'Target' section, 'Drop Target Box' is listed. The 'Add Match' dropdown menu is open, showing options: Match, Drag distractor, and Drop distractor. The 'Match' option is highlighted with a red box. The main canvas displays a question titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. Below the text is a list of items: Viruses, Spyware, Ransomware, and Email Phishing. To the right of the list is a large blue rectangular target box labeled 'Malware'.

12.
Select the **Drag Item** selection list.

The screenshot displays the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for question settings like 'Disable Next', 'Show correct at end', 'Disable submit', 'Disable Previous', 'Enable navigation at end', 'Disable try again', and 'Attempts' (set to 1). The main workspace shows a slide titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. Below this text are four green buttons labeled 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. To the right of these buttons is a large blue rectangular area labeled 'Malware'. The 'Edit Question Properties' panel is open on the right, showing the 'Details' tab. Under 'Draggable Element', 'Viruses Text' is listed. Under 'Target', 'Drop Target Box' is listed. The 'Add Match' section has two dropdown menus, both currently set to 'Select'. The 'Drag Item' dropdown is highlighted with a red rectangle. At the bottom of the panel are 'Ok' and 'Cancel' buttons. The bottom status bar shows 'Page Notes', 'Page Transcript', 'Element States', 'Timeline', and 'Accessibility' tabs, along with 'Feedback', 'Update', and 'Cancel' buttons.

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

13.
Select the **Spyware Text** element.

The screenshot shows the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for question settings like 'Disable Next', 'Show correct at end', 'Disable submit', 'Disable try again', 'Attempts', 'Disable Previous', and 'Enable navigation at end'. The main canvas displays a drag and drop question titled 'Drag and Drop' with the instruction 'Drag only the correct text elements to the drop target.' and the question 'Which of these are examples of Malware?'. The options are 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. A large blue box labeled 'Malware' is the drop target. The 'Edit Question Properties' panel on the right shows the 'Add Match' dropdown menu, where 'Spyware Text' is highlighted with a red box. The panel also shows 'Draggable Element' and 'Target' sections.

14.
Select the **Drop Target** selection list.

The screenshot displays the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for 'Insert', 'Engage', and 'Question'. The 'Question' panel on the right is open, showing the 'Edit Question Properties' dialog. The 'Drag and Drop' question type is selected. The 'Draggable Element' is 'Viruses Text' and the 'Drop Target' is 'Drop Target Box'. The 'Add Match' section shows 'Spyware Text' as the 'Drag Item' and 'Select' as the 'Drop Target'. The 'Drop Target' dropdown is highlighted with a red box. The main canvas shows a drag and drop question titled 'Drag and Drop' with the instruction 'Drag only the correct text elements to the drop target.' and the question 'Which of these are examples of Malware?'. The answer choices are 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. The 'Drop Target' is a large blue box labeled 'Malware'.

15. Select **Drop Target Box**.

The screenshot displays the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for question settings like 'Disable Next', 'Show correct at end', 'Disable submit', 'Disable Previous', 'Enable navigation at end', 'Disable try again', and 'Attempts' (set to 1). The main workspace shows a slide titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. Below this text are four green buttons labeled 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. To the right of these buttons is a large blue rectangular area labeled 'Malware'. The right sidebar is open to the 'Edit Question Properties' panel, which has tabs for Details, Choices, and Cover Art. The 'Details' tab is selected, showing a 'Draggable Element' list with 'Viruses Text' and a 'Target' list with 'Drop Target Box'. The 'Add Match' section shows 'Spyware Text' as the 'Drag Item' and 'Drop Target Box' as the 'Drop Target'. The bottom of the interface shows a toolbar with 'Page Notes', 'Page Transcript', 'Element States', 'Timeline', and 'Accessibility' tabs, along with 'Feedback', 'Update', and 'Cancel' buttons.

16.
Select **Ok**.

The screenshot displays the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for 'Insert', 'Engage', and 'Question'. The 'Question' panel on the right is open, showing the 'Edit Question Properties' dialog box. The dialog box has tabs for 'Details', 'Choices', and 'Cover Art'. The 'Details' tab is selected, showing the 'Draggable Element' and 'Drop Target' sections. The 'Draggable Element' is set to 'Viruses Text' and the 'Drop Target' is set to 'Drop Target Box'. The 'Add Match' section shows 'Spyware Text' as the 'Drag Item' and 'Drop Target Box' as the 'Drop Target'. The 'Ok' button is highlighted with a red box. The main canvas shows a slide titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. Below the text are four green buttons: 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. To the right of these buttons is a large blue rectangular area labeled 'Malware'.

17.
To set up the third Match, select the **Add** button.

The screenshot shows the Articulate Storyline software interface. The main canvas displays a drag and drop question titled "Drag and Drop" with the instruction "Drag only the correct text elements to the drop target." The question text is "Which of these are examples of Malware?". Below the text is a list of four items: "Viruses" (green), "Spyware" (green), "Ransomware" (green), and "Email Phishing" (red). To the right of the list is a large blue rectangular drop target box labeled "Malware".

The "Edit Question Properties" panel is open on the right side of the screen. It has three tabs: "Details", "Choices", and "Cover Art". The "Details" tab is selected. It shows a table with two columns: "Draggable Element" and "Target".

Draggable Element	Target
<input type="checkbox"/> Viruses Text	<input checked="" type="checkbox"/> Drop Target Box
<input type="checkbox"/> Spyware Text	<input checked="" type="checkbox"/> Drop Target Box

Below the table, there is an "Add Match" section with two dropdown menus: "Drag Item:" and "Drop Target:". The "Add" button in the "Add Match" section is highlighted with a red box.

At the bottom of the panel, there are buttons for "Feedback", "Update", and "Cancel".

18.
Select **Match**.

<input type="checkbox"/> Viruses Text	<input type="checkbox"/> Drop Target Box
<input type="checkbox"/> Spyware Text	<input type="checkbox"/> Drop Target Box

Below the table, there is an "Add Match" section with two dropdown menus: "Drag Item:" and "Drop Target:". The "Drag Item:" dropdown is currently set to "Select" and is highlighted with a red rectangle. The "Drop Target:" dropdown is also set to "Select". Buttons for "Remove", "Edit", "Add", "Ok", and "Cancel" are visible.

The bottom of the interface shows a navigation bar with "Page Notes", "Page Transcript", "Element States", "Timeline", and "Accessibility" tabs. At the very bottom, there are links for "Contacts", "Support", and "Quick Tour".

Custom Drag and Drop Example 2 - Setting Up Matches and Drag Distractor

20.
Select the **Ransomware Text** element.

The screenshot displays the Blackboard LMS interface for creating a custom drag and drop question. The main workspace shows a question titled "Drag and Drop" with the instruction "Drag only the correct text elements to the drop target." and the question text "Which of these are examples of Malware?". Below the text, there are four draggable text elements: "Viruses" (green), "Spyware" (green), "Ransomware" (green), and "Email Phishing" (red). To the right of these elements is a large blue rectangular drop target labeled "Malware".

The right-hand pane, titled "Edit Question Properties", is open to the "Details" tab. It shows a table with two columns: "Draggable Element" and "Target". The table contains two rows: "Viruses Text" and "Spyware Text", both with a "Drop Target Box" icon in the "Target" column. Below the table, there is an "Add Match" section with a dropdown menu for "Drag Item:". The dropdown menu is open, showing a list of options: "Heading Text", "Email Phishing Text", "Viruses Text", "Spyware Text", "Ransomware Text" (which is highlighted with a red box), and "Rich Text".

The top navigation bar includes tabs for "New", "Open", "Edit", "Library", "Insights", "Publish", and "Preview". The "Question" tab is currently selected. The bottom navigation bar includes links for "Contacts", "Support", and "Quick Tour".

21.
Select the **Drop Target** selection list.

The screenshot displays the Articulate Storyline software interface. The top ribbon includes tabs for New, Open, Edit, Library, Insights, Publish, and Preview. The 'Question' tab is active, showing options for 'Insert', 'Engage', and 'Question'. The 'Question' panel on the right is open, showing the 'Edit Question Properties' dialog. The 'Details' tab is selected, and the 'Drop Target' section is visible. The 'Draggable Element' list includes 'Viruses Text' and 'Spyware Text'. The 'Drop Target' list includes 'Drop Target Box' and 'Drop Target Box'. The 'Add Match' section shows 'Ransomware Text' as the 'Drag Item' and 'Select' as the 'Drop Target'. The 'Drop Target' dropdown is highlighted with a red box. The main canvas shows a drag and drop question titled 'Drag and Drop' with the text 'Drag only the correct text elements to the drop target.' and 'Which of these are examples of Malware?'. The answer choices are 'Viruses', 'Spyware', 'Ransomware', and 'Email Phishing'. The 'Ransomware' choice is highlighted with a red box. The 'Drop Target' is a large blue box labeled 'Malware'.

22. Select Drop Target Box.

The screenshot displays the Microsoft Forms editor interface. The main canvas shows a question titled "Drag and Drop" with the instruction "Drag only the correct text elements to the drop target." and the question text "Which of these are examples of Malware?". Below the text, there are four draggable items: "Viruses", "Spyware", "Ransomware", and "Email Phishing". To the right of these items is a large blue rectangular drop target labeled "Malware". The "Ransomware" item is highlighted with a red border. On the right side, the "Edit Question Properties" panel is open, showing the "Details" tab. Under the "Draggable Element" section, "Viruses Text" and "Spyware Text" are listed. Under the "Target" section, two "Drop Target Box" elements are listed. The "Add Match" section shows "Ransomware Text" as the "Drag Item" and "Drop Target Box" as the "Drop Target". The "Drop Target" selection is highlighted with a red border. The bottom of the interface shows navigation links for "Contacts", "Support", and "Quick Tour".
