<https://www.dominknow.com>

1. In list view, select the Project name in the Outline.

2. Select the three-dot menu.

3. Select Batch Commit.

4. On the Commit panel, add a comment explaining the status or reason why you are committing the pages.

Select Ok.

5. When the authoring interface refreshes, you'll see that none of the pages have check marks beside them anymore.
