
Add a Standard Button to a Placeholder on your page

Created On: May 8, 2021

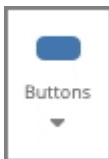

1. Select the Placeholder on the Page.

2. Above the Stage select **Insert**.

3. Select Buttons.

4. Under the Standard Buttons list, select the second option for a rectangular button with radiused corners.

5. The button is added to the page.

Select the Pencil icon to edit the button name..

In this example, we named the button Check Your Work.

6. On the Selection Control Bar, select the Alignment option.

7. Select the Center Alignment option.

8. The button is now centered within the element.

Select the page background to close the Alignment panel.

9. The button element has been added and center-aligned on the Page.
