
Copy a Tab from One Tab Set to another

Created On: May 17, 2024

1. Select the Tab Set on the page.

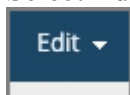

2. Select the **edit option** (pencil Icon).

3. Select (single-click) the header text element on the Tab.

4. Confirm in the breadcrumb above the Stage that you have the Tab selected (the Tab is named based on the text in its header text element).
Select **Edit**.

5. Select **Copy**.

Job Aid Copy a Tab from One Tab Set to another

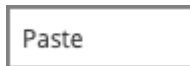

6. Select the second Tab Set element.

7. Select **Edit**.

8. Select **Paste**.

9. The copied Tab is now added in the second Carousel element.
