
Publishing a Web Package to Convey to Create an Instant Public Link

Created On: November 16, 2023

1. Select **Share**

2. Select **Convey Dynamic Publishing Web Link**

3. The Convey Dynamic Publishing Web Link section will refresh, and will now show the publish date.

You can republish the package at any time using the **Share Again** option.

To share the Convey link URL, select **View Links**.

4. The Publish card will open.

If the Project uses Publish Targets, the card will show separate links for each Publish Target.

Use the **Copy Link** option to copy the package's Convey URL to your clipboard.

Select **Close** when you are finished.
