1.   Select the Title text element.

WHITE

2.   Select the pencil icon.

3.   The text element will now be highlighted in a gold box and you'll see the text editing mini toolbar. You can now edit the text.

Select the text element and we'll add text for you.

4.   Select the subtitle text element.

SUBTITLE

5.   Select the pencil icon.

6.   You can now edit the text.

Select the subtitle element and we'll add in text for you.

7.   Select the empty area of the page to exit edit mode for the text element, which saves the text change.

8.   The two text fields now display the changed text.
