
Add a Hover Animation to a Tile Card Component

Created On: January 4, 2022

1. To add a hover animation to a Tile Card, select the Tile Card on the page.

2. Select the three-dot menu in the Inline Toolbar.

3. Select FX.

4. Under Hover Animation, select Dark Blur.

*Note: Zoom and Fast Zoom will only work with a Background Image applied to the component.

5. Preview the Current Page to see how the Tile Card Hover Animations will look and behave for your learners.
