
Edit a Tile Card Component

Created On: August 12, 2021

1. To edit the Tile Card, select the Tile Card on the page.

2. To edit the content on the Tile Card, select the Edit icon in the inline toolbar.

3. Select the Tile Card Subtitle and we'll add text for you.

Tile Card Subtitle

4. The Subtitle is added.
Select the Tile Card Title and we'll add text for you.

Tile Card Title

5. The Title is added.
Select the Icon within the Component.

6. Select the three-dot menu in the Inline Toolbar for the Icon element.

7. Select Options to view the Options tab for the Icon element Options.

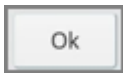

8. Select Change Icon.

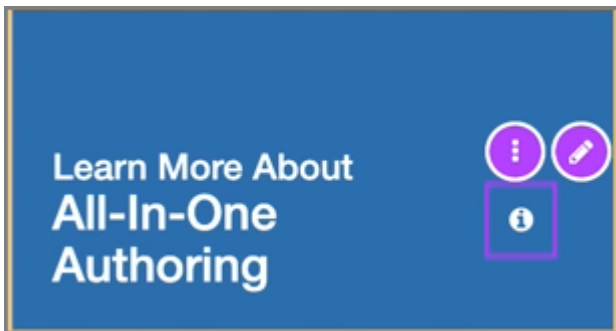

9. Select option 7 under the 5th column (i Icon).

10. Select Ok.

11. Select the component to view the Options for the Component as a whole.

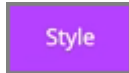

12. The Options and Style tabs have a number of control and design options for the Reveal Component as a whole. You can change the Orientation, Respond At (in Flow), Enable/Disable Justified, Enable/Disable Sequential, Enable/Disable Start Unopened, Add Content, Enable/Disable Controls, Starting layout, Adjust the Shape of the tabs, Color, Opacity and Background Fill. Use the FX tab to add effects to the component. Note: When in Essentials, only a limited number of Options are shown. To see all Options, make sure you are in Designer Mode.

Under Content Alignment select Option 2.

13. The Content Alginment has changed.

Select the Style Tab.

14. To change the Background color of the Tile Card select Fill.

15. Select Option 1 under Green.

16. The color has been changed.

Select the Page area below the Pick a Fill popup to return to the Page content.

17. Preview the Current Page to see how the Tile Card Component will look and behave for your learners.
